PROFESSIONAL SUMMARY

MCA student and entry-level Java Developer with a strong foundation in **Core Java, Object-Oriented Programming, Spring Boot, Spring MVC, REST APIs, Spring Data JPA, SQL, MySQL, JDBC, and DBMS**. Hands-on experience developing backend applications and academic projects involving CRUD operations, database integration, validation, pagination, sorting, and exception handling. Completed a Java Full Stack Developer internship with practical exposure to web application development, REST API integration, database operations, testing, and debugging. Seeking an entry-level Java Developer, Backend Developer, or Full Stack Developer role.

TECHNICAL SKILLS

- **Programming:** Java, C, Python
- **Backend:** Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs, JDBC
- **Database:** MySQL, SQL, DBMS, Database Design, CRUD Operations
- **Frontend:** HTML, CSS
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA), Problem Solving
- **Tools / Technologies:** Maven, Swagger/OpenAPI, AWS Data Engineering, Pandas, NumPy

INTERNSHIP EXPERIENCE

TalentXMind **2 Months**

Java Full Stack Developer Intern

- Developed and enhanced web application features using Java, Spring Boot, REST APIs, HTML, and CSS as part of assigned development tasks.
- Implemented backend functionality using Spring Boot and integrated REST APIs with application components to support data-driven features.
- Worked with SQL and database concepts to perform CRUD operations and manage application data efficiently.
- Tested, debugged, and fixed application issues while validating functionality and improving application reliability.
- Collaborated with team members to understand requirements, implement assigned features, and complete development tasks within the internship period.

PROJECTS

CineVerse API *Java — Spring Boot — Spring Data JPA — MySQL — REST API — Maven*

- Developed a RESTful Movie Management API using Spring Boot to manage movie records through backend services.
- Implemented complete CRUD operations for creating, retrieving, updating, and deleting movie records.
- Integrated Spring Data JPA with MySQL for persistent data storage and efficient database interaction.
- Implemented pagination, sorting, input validation, and global exception handling to provide reliable and consistent API responses.

Student Management System *Java — JDBC — SQL — DBMS — Database Design — HTML — CSS*

- Developed a student information management system to organize and manage student records efficiently.
- Applied DBMS and SQL concepts for data storage, retrieval, and database operations.
- Used JDBC and database design concepts to support application-level interaction with stored student information.

Library Management System *Python — SQL — DBMS*

- Developed a library management project focused on efficient management and retrieval of library records.
- Applied SQL and DBMS concepts to execute structured queries and manage application data.

Calculator *C*

- Developed a basic calculator application using C to strengthen programming fundamentals, logical thinking, and problem-solving skills.

EDUCATION

Master of Computer Applications (MCA) **2025 – Present**
IIMT College, Greater Noida *CGPA: 8.1*

Bachelor of Science (B.Sc.) **2025**
Marwari College, Darbhanga *72.38%*

Class XII **2021**
M.L.S.M College, Darbhanga *70%*

Class X **2019**

B.D.Y. High School, Pohaddibela, Darbhanga *79.4%*

CERTIFICATIONS

- Oracle Java Foundations – Coursera
- Python for Data Science – Coursera
- Data Structures in Python – Coursera
- Data Engineering in AWS – Coursera
- Styling with CSS – Layouts and Visual Design – Coursera
- Software Engineering: Modeling Software Systems using UML – Coursera
